

FLOW = ACCESS

Applying flow strategies to maximize patient & resident access to appropriate care.

At Providence, our goal is to deliver the highest level of patient care.

In these next months you'll be hearing a lot about our Flow Strategy and all of the projects and work that has been done and will continue to be done by PHC's Patient Flow Committee.

Alongside staff and medical staff at St. Paul's, MSJ and Holy Family Rehab, the Patient Flow Committee is working to establish an organization-wide system that will streamline and improve patient flow and our ability to treat people in the most appropriate care location.

Moving the dial on patient flow will involve a lot work but together, we are committed to making a difference.

How you want to be treated.
